## 2. How to install CIROS® Production

To install CIROS® Production you will need the CIROS® Automation Suite DVD-ROM, where all the software packages of the CIROS® Automation Suite are ready for installation. It also includes the manuals in the form of PDF documents for the individual software packages.

On completion of the installation, you will need to execute the licencing. As soon as this is successfully completed you can start CIROS® Production.

For further information regarding system requirements, installation and licencing, please refer to the enclosed instructions.
